—It is about time to begin active operations on the farm for the new crop, but all the harness should be gathered up and carried to W. S. Maddux's shop first to be put in thorough repair. And if you need any new harness, that is the place to get it.

—A number of teams were at work one or two days this week, hauling out the brick-bats and rubbish from the burned buildings on Main Street, and placing the same on the road bed beyond Col. Ed. Wood's home. Quite an improvement will be made in that part of the Smithville road.

—Our announcement column this week contains the name of Mr. I. L. Rhey as a candidate for re-election to the office of Sheriff. —Mr. C. G. Black's announcement as a candidate for Trustee and Tax Collector appeared in our columns last week. Among the numerous aspirants for this office none are more competent to discharge the duties than Mr. Black. He is a most accurate, methodical business man, and if elected to the office of Trustee will make quite an acceptable and accommodating official.

—The little park in the center of the town of McMinnville would be "a thing of beauty and a joy forever" if it was only protected from the ravages of the town hog. If the people of McMinnville will have hogs on the streets, some provision should be made to at least keep them out of the park. If the corporation has no official whose duty it is to look after this matter, it should be made somebody's duty. And it should be somebody's duty to see that the gates are always kept in good repair.

—Some months ago we suggested that a memorial association be formed to look after the matter of beautifying and keeping in order our cemeteries. This is a matter in which every inhabitant of the place should feel a deep interest. Our new cemetery needs attention, and it should be given some better name than merely "the new cemetery." We hope those who have friends and relatives buried there will take hold of the matter this spring and form the association. A little well directed effort will make the cemetery a much more attractive place.

LIVELY'S ART GALLERY.

The Finest Photographic Work Now Produced in McMinnville.

Some seven or eight years ago when Mr. W. S. Lively went to the expense of adding a second story to a building then used by his father as a furniture store for a photograph gallery, many thought he was making a very foolish investment, but the venture has proven a good one, and his efforts have been crowned with success. He did first-class work from the start, and has kept pace with every improvement in the manner of producing the best photographic work. He has recently added to his gallery a large lot of new scenery and accessories, and a new camera, the finest made by the American Optical Co., by which he is enabled to make photographs as large as 14x17 inches in size. He is enabled with this instrument, to produce several attractive styles of pictures which he never made before, also to copy and enlarge old pictures to the best advantage. It is one of the best instruments made for getting fine views of buildings, natural scenery, etc. The work which Mr. Lively turns out is equal in every respect to that of the best city galleries, and this fact is securing for him not only a good run of local custom, but people from all of the surrounding counties are now having work done by him in preference to Nashville and other cities. He has reduced the prices on all large size pictures. It always gives us pleasure to note the success of any kind of business in McMinnville, and commend those so highly deserving of it as Mr. Lively.

Mrs. Blair's Death.

Dr. Stainback has received a telegram from Dr. A. B. Ramsey, dated at Philadelphia, East Tennessee, announcing that his mother-in-law, Mrs. Blair, had died at 5 o'clock Wednesday evening, the 12th inst. Mrs. Blair had been seriously ill for several weeks, and while the news was not unexpected it was none the less sad to her numerous friends here. Dr. Ramsey and wife have the warmest sympathy of all their acquaintances here in their sad loss.

A County Fair.

No county in the State is more favorably located than Warren for the successful maintenance of a well conducted county fair. Our own county within itself would give such an enterprise a liberal support, and by its central location in a tier of counties without fairs, would draw large patronage from all of them. We renew the suggestion made some months ago to the Farmers' Alliance, or Farmers' and Laborers' Union as we believe it is now, to take hold of this matter. If this organization will take the matter in hand and push it, they can succeed, and will thus establish an institution that will benefit every farmer in the county. The merchants and business men of all classes all over the county will aid the cause liberally if the farmers will take the lead. It is an institution which naturally should be conducted and controlled by the farmers.
